1.0 General Report Overview

Section 6.9.1 of the MDHHS/CMHSP Managed Mental Health Supports and Services Contract (Contract) requires the Community Mental Health Services Program (CMHSP) to authorize inpatient care in advance for all admissions to state owned and operated hospitals / centers in those instances where there is no community inpatient alternative. It further requires the CMHSPs review treatment at intervals determined jointly between the authorizing CMHSP and the State Facility, as well as authorization of continued stay. The responsibilities of the Michigan Department of Health and Human Services (MDHHS) and the CMHSP are outlined in the following sections or attachments to the Contract.

- Section 6.6.3.6 – Payment of State-Delivered Services
- Section 6.9.1 – State Managed Services
- Attachment 6.9.1.1 – Department of Health and Human Services Protocol for Community Mental Health Service Programs – State Managed Services and Financial Liability for Persons Acquitted of a Criminal Charge by Reason of Insanity
- Attachment 6.9.1.2 – Department of Health and Human Services – State Facility Attachment

The CMHSP will be billed, on behalf of the County, the “Local Cost of State Services”. Per Section 302 of the Mental Health Code (MHC), the county is financially liable for 10% of the net costs of the services provided at the state owned and operated hospitals / centers, except for an individual under a criminal sentence, a criminal defendant determined to be incompetent to stand trial, or an individual acquitted of a criminal charge by reason of insanity. Please refer to the communication from Tim Becker, Senior Deputy Director, Operations Administration dated August 19, 2013, “Implementation of New County 10% Billing Process”, for additional information of the billing for the Local Cost of State Services.

The Local Costs for State Services, Reconciliation and Cash Analysis report will be used for:

- Reconciliation of State Facility utilization between CMHSP and MDHHS records for the Local Cost for State Services.
- Reconciliation of the expenditures reported on the FSR to the cost of State Facility utilization for the Local Cost for State Services.
- Analysis of cash payments made to MDHHS for the Local Cost for State Services liability for State Facility utilization.

5.1 Section 1 – Days Of Care

The Local Costs for State Services, Reconciliation and Cash Analysis report will be used to settle the Local Cost for State Services. The “Days of Care” section of this report will identify the number of days of care reported on the DMH Patient Billing Monthly Resident / Room Charge List – By County Report (65140-01), the days of care reported by the CMHSP and provide for reconciliation of the billed and reported days of care.

The DMH Patient Billing Monthly Resident / Room Charge List – By County Report (65140-01) includes days of care for both the forensic admissions and non-forensic admissions.

Forensic Admissions are indicated by an “(F)” following the Amount Charged column and represent the total number of forensic days which the CMHSP is not financially liable for the cost of care. MDHHS refers to these days as the non-billable days, meaning that these days are not billed to the CMHSP for the Local Costs of State Services liability.

Non-Forensic Admissions represent the total number of non-forensic days which the CMHSP is financially responsible for the cost of care. MDHHS refers to these days as the billable days, meaning that these days are billed to the CMHSP for Local Costs of State Services liability.

The days from the 65140-01 report will be utilized for settlement purposes, unless otherwise justified. Each state owned and operated facility has a column in Section 1 where the “billable” days for each facility will need to be entered. The last column (Total) is formula driven and *represents the sum of all Facilities*.
